1. Claims 32, 58 and 82 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form.

2. Claim 79-81, 84, 86 are objected to because of the following informalities: these claims are phrased awkwardly and are not seen to limit the parent claim..

Appropriate correction is required.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 70-72, 86-87 are rejected under 35 U.S.C. 102(b) as being anticipated by Yoshino (JP# 03-267965).

Yoshino teach an toner container comprising a container body 11, a toner outlet 12A, and a "mouthpiece" 14 which covers the toner outlet and which comprises means for engaging notches 150 which engage a setting portion 240 according to the type of toner container. See Fig.s 3,6,7.

4. Claim 90 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Claims 29-30,32-46,48-54,56-69,73-85,88-89 are allowable over the prior art of record.
